# About Us

Established in September 2020, Colombo Graduate Campus is a limited liability company.

The Colombo Graduate Campus (CGC) is a prestigious educational institution offering a diverse array of academic and professional programs to both Sri Lankan and international students.

The Colombo Graduate Campus (CGC) features a comprehensive One-Stop Centre in Kollupitiya, Sri Lanka, dedicated to assisting international students seeking higher education in both public and private institutions abroad, as well as in language and training centers. This center, strategically situated in Kollupitiya, is easily reachable via multiple transport options. Furthermore, CGC extends its services across several key locations in Sri Lanka, including Colombo, Jaffna, Kandy, Batticaloa, and Galle. The professional certifications are provided by CGC's training division called Phoenix Professionals.

The Colombo Graduate Campus (CGC) boasts prestigious partnerships with esteemed international colleges and universities. Renowned institutions such as Qualifi, OTHM, and Microsoft Certifications are among the diverse programs we facilitate in Sri Lanka. Thanks to our strong collaborations with these global affiliates, we take immense pride in having fostered opportunities for over 700 undergraduate and postgraduate students in a relatively short timeframe, predominantly in the disciplines of Management, IT, and Languages.

## Our Vision

To weave innovation, sustainability, and adaptation into every facet of learning, cultivating responsible leaders for a resilient future.

## Our Mission

To empower a diverse community of learners to explore and create solutions for the pressing challenges of our time. Through innovation in teaching, research, and community engagement, we promote continuous improvement and global citizenship. Guided by principles of sustainability and adaptability, we commit to environmental stewardship and ethical resource management, shaping a future that reflects our values.

# About Qualifi

Qualifi is a distinguished 21st-century awarding organisation headquartered in the United Kingdom, established with a clear mission to address the dynamic and evolving education and training needs of learners and employers both in the UK and across the globe. With a strong emphasis on quality, relevance, and innovation, Qualifi has developed a broad portfolio of internationally recognised qualifications that span key sectors such as business, management, health and social care, hospitality, and more. These programmes are designed to equip learners with the practical skills, academic knowledge, and industry-relevant competencies essential for success in today's fast-paced and highly competitive global job market.

As a recognised awarding organisation regulated by Ofqual (The Office of Qualifications and Examinations Regulation), Qualifi operates under the highest standards of integrity and excellence. This regulatory oversight ensures that all qualifications are developed and delivered with rigorous quality assurance processes, giving learners, employers, and academic institutions complete confidence in the validity, reliability, and value of the qualifications awarded.

Qualifi qualifications are not only a mark of academic achievement but also a gateway to further educational opportunities, including direct progression routes to bachelor's and master's degree top-up programmes with a wide network of partner universities in the UK and overseas. This seamless academic progression makes Qualifi an ideal choice for learners seeking both professional development and higher education advancement.

By maintaining strong links with industry, academia, and global training providers, Qualifi continues to ensure its qualifications remain current, impactful, and aligned with market needs. Its commitment to lifelong learning, employability, and global standards has positioned Qualifi as a trusted and respected leader in the field of education, empowering thousands of learners worldwide to achieve their personal, academic, and professional goals.

## Course Overview

The qualification in Project Management has been designed to develop and recognise dynamic professionals who are equipped to lead and deliver successful projects in a variety of complex, fast-paced, and cross-functional business environments. This Level 7 programme provides learners with advanced project management knowledge, tools, and leadership capabilities essential for planning, executing, and managing projects at a strategic level.

Learners will critically explore a comprehensive range of topics including project planning and control, stakeholder engagement, risk and quality management, budgeting and financial oversight, procurement strategies, and leadership in project teams. The programme also integrates modern methodologies such as Agile and Lean, alongside emerging trends like digital project management, sustainability in projects, and the role of data analytics in project performance measurement.

Combining theoretical rigour with practical application, this qualification enhances the strategic thinking, organisational skills, and decision-making abilities of aspiring project leaders. It is ideally suited for professionals seeking to advance into senior project management roles across industries, or for those pursuing academic progression through a Master's degree top-up.
